DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Group II in the reply filed on 2/13/06 is acknowledged. The traversal is on the ground(s) that there is no undue burden on the examiner to examine all the claims. This is not found persuasive because Group I is directed to an iodonium compound which is in a different class than the sulfonium compounds in Groups II and III. The sulfonium compounds in Groups II and III can be restricted because in Group III the sulfonium is in a ring whereas the sulfonium compound in Group II is not.

The requirement is still deemed proper and is therefore made FINAL.

2. This application contains claims drawn to an invention nonelected with traverse in the paper filed 6/20/05. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

3. The examiner notes the claims filed on 2/13/06 list claim 1 as previously presented, however, there are changes in the claim. As the claim is described as previously presented the examiner uses original claim 1 in the rejections below.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1,2 are rejected under 35 U.S.C. 102(b) as being anticipated by Crivello et al.

In col. 3, Crivello teaches the compound below that meets the limitations of claims 1 and 2.

Allowable Subject Matter

6. Claims 3-9,14-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. The following is a statement of reasons for the indication of allowable subject matter: The prior art does not teach the compounds in claims 3-9 or the use of the compounds in claims 1,3 and 5 in a resist composition.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rosemary E. Ashton whose telephone number is 571-272-1326. The examiner can normally be reached on Mon-Fri, 11:00-5:00.
